

Links-Free and Open Source Software for Translators  
Presented by Corinne McKay

## Organizations and Projects

The Free Software Foundation: [www.fsf.org](http://www.fsf.org) , including the GNU General Public License  
Vores Øl- the open source beer: [www.voresoel.dk](http://www.voresoel.dk)  
The Translation Project-South Africa: [www.translate.org.za](http://www.translate.org.za)

## Linux Distributions

Red Hat: [www.redhat.com](http://www.redhat.com)  
Debian: [www.debian.org](http://www.debian.org)  
Ubuntu: [www.ubuntu.com](http://www.ubuntu.com)  
Mandriva: [frontal2.mandriva.com](http://frontal2.mandriva.com)  
SuSE: [www.novell.com/linux/suse](http://www.novell.com/linux/suse)  
Linspire: [www.linspire.com](http://www.linspire.com)  
Knoppix: [www.knoppix.net](http://www.knoppix.net)

## Featured Applications

OpenOffice.org  
Mozilla Firefox: [www.getfirefox.com](http://www.getfirefox.com)  
GnuCash (accounting): [www.gnucash.org](http://www.gnucash.org)  
Scribus (desktop publishing): [www.scribus.net](http://www.scribus.net)  
GIMP (image manipulation): [www.gimp.org](http://www.gimp.org)  
Quanta (web development): [quanta.sourceforge.net](http://quanta.sourceforge.net)  
OmegaT(FOSS TM tool): [www.omegat.org](http://www.omegat.org)  
Crossover Office (Windows on Linux): [www.codeweavers.com](http://www.codeweavers.com)  
Heartsome (TM package that supports Linux and OO.o; proprietary): [www.heartsome.net](http://www.heartsome.net)  
Sun Open Language Tools (XLIFF system): <https://open-language-tools.dev.java.net/>  
ENLASO Okapi Framework: [okapi.sourceforge.net](http://okapi.sourceforge.net)  
ForeignDesk: [www.foreigndesk.net](http://www.foreigndesk.net)  
Transolution (XLIFF system) : [transolution.python-hosting.com/](http://transolution.python-hosting.com/)
